

Weekly Challenge!

Can we play a game of turn taking everyday this week?

Grown-ups:

Could you make time to play a game of turn taking everyday this week. For the older children this could be a game such as matching pairs or snap, for the younger children this could be rolling a ball to each other or building blocks/ cans saying "Mummy's turn, *child's name* turn".

Learning to take turns is important because communication is a two-way process and to be a successful communicator, children must learn to take turns as speaker and listener.
