

Challenge 5

Boston Nursery School

Weekly Challenge!

Grown-ups:

Talk about what the weather is like every day!

When you are at home, or out and about, help your child to notice what the weather is like each day. Ask them to tell you if they see the clouds, sun, rain etc.

Practice saying a sentence with your child. For example, you could say, 'It is raining today.' Encourage your child to repeat the sentence and think of similar sentences to say.

Learning to observe the world around them and talking about their observations help children greatly in making sense of the world in which they live. Talking sentences with your child will support the development of their language skills.
