

Art: Our Local Area

Design a Boston picture signpost

Boston has many landmarks which make it different to other towns. Your first task is to research different landmarks and tourist attractions that are unique to Boston.

Villages and towns are very proud of what they have to offer their visitors. These landmarks are sometimes displayed on picture signposts like these below.

These signposts are colourful, clear and use pictures of landmarks/food/animals or objects related to the town or village.

For your second task, use your research of the Boston area to create your own picture signpost that could be used to welcome visitors to our town.

When designing your signpost, think about:

- The size and shape of your sign
- Make it colourful and eye catching
- Clear to read
- What makes Boston different?
- What might visitors like to do in our town?
